

# Copittrak Eclipse

## Secure Fingerprint Login and Touch screen Account Entry

Built from the ground up on the Windows CE platform, the Eclipse offers unprecedented ease of use with its large touch screen display, built in numeric keyboard, intuitive Smartbar user functionality and biometric reader for finger-print recognition. Configured as a fax control terminal, the Eclipse has dual line capability and is compatible with all fax devices.

Eclipse uses true client/server architecture over TCP/IP to communicate back to the central Copittrak server from any point within an existing LAN and WAN network. Standard Copittrak features such as Search, Recall and Favorites are a touch away; regardless of location making usage simple, fast and accurate.

### Built-in Scan Routing and Preview

Eclipse terminals can be configured with full Scan routing and Scan Preview. No matter which device a user accesses they will have the same robust user friendly interface.

Includes:

- ✓ Scan to email
- ✓ Active Directory Search
- ✓ Scan to Network folder
- ✓ Scan to Copittrak Desktop
- ✓ Scan to RightFax
- ✓ Scan to Doc Management Systems
- ✓ Scan to OCR

### Closer Look - Smart Bar Interface

The Copittrak Smart Bar places all of the Features of the Copittrak System just a Touch away.

**Account Number Last Job Recall** – With a Single Touch Users are able to access Account Numbers they frequently use.

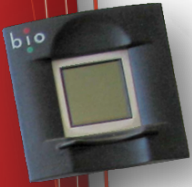

**Favorites** – User can store up to 20 Favorite Account Numbers for quick and easy access from any Copittrak Terminal or Application.

**Auto Complete** –The Eclipse assists users in entering Account Numbers by automatically showing all Available Account Numbers based on what the User has typed so far.

**Super Search** – Super Search allows users to find Account Numbers by typing in any portion of the Account Number or Account Name/Description.

# Copittrak Eclipse

The only Cost Recovery Terminal with Bio-Metric, Users can touch to Login, touch an Account from their Favorites or Last Job Recall List and they're ready to go.

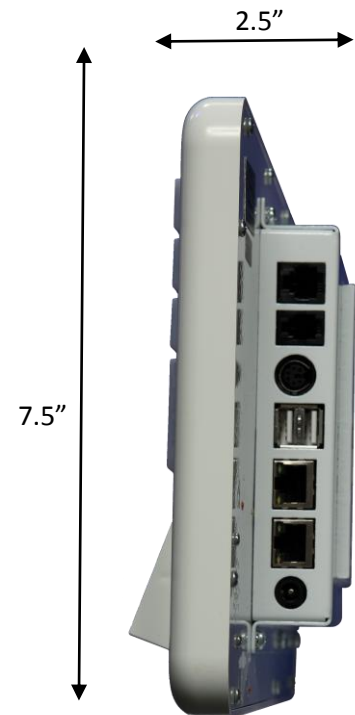

With a small footprint at just 7.5" Tall, 12" Wide and only 2.5" deep, the Eclipse Terminal is a feature rich platform.
