

# Copittrak Print

Part of the Copittrak Desktop Suite

**COPITRAK PRINT IS THE INDUSTRY'S MOST ADVANCED DESKTOP PRINT TRACKING SOFTWARE**

Copittrak Print automatically tracks all your printer, plotter and digital copier output without having to leave the programs you are working in. It effectively monitors 100% of all printer activity, working either silently (in the background) or interactively with the user. Copittrak Print integrates with the office environment to ensure complete print management for client charge-back and internal management and analysis.

**One Click Billing** – Copittrak Print makes billing costly Print jobs as easy as one Mouse click. Through Document Management integration and Last Job Recall, Copittrak Print's built-in Intelligence assists the user by automatically selecting the Account code.

**IT Friendly** – Copittrak Print features an automatic push install and does not affect the Print environment. Additionally Copittrak Print is fully 64 Bit compliant making it the most IT friendly Print tracking product available.

### **Closer Look - Smart Bar Interface**

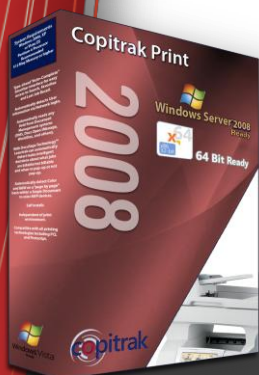

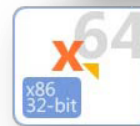

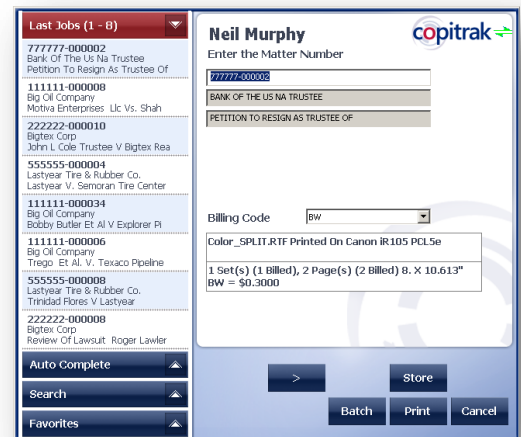

The Copittrak Smart Bar places all of the features of the Copittrak System just a command away. Here's a look at the Smart Bar Features:

**Last Job Account Recall** – With a Single Click Users are able to access Account Numbers they frequently use.

**Favorites** – User can store up to 20 Favorite Account Numbers for quick and easy access from both the Desktop and any Copittrak Terminal. Favorites remain until the Account Number is closed or the User removes it.

**Auto Complete** – Copittrak Print assists users in entering Account numbers by automatically showing all Available Accounts based on what the User has typed so far.

**Super Search** – Super Search allows users to find Account numbers by typing in any portion of the Account Name or Account Description.
