

# Nuance Copitrak

The #1 cost recovery and document scanning workflow platform.

Copitrak is a single, integrated solution that not only seamlessly tracks and recovers costs, but also automates the document lifecycle and breaks down scanning workflow bottlenecks. It offers the accessibility end-users demand while providing insight into expenses, profitability, and cost recovery.

## **Cost recovery** that pleases everyone from the administrator to the CFO... but most of all the partners.

In today's law office security, productivity, cost of ownership and protecting profitability are the top concerns. Firms struggle to strike the right balance between empowering their employees to service their clients' needs, while tracking their activity to ensure expenses are accurately billed or allocated. IT managers are burdened by the complexity of managing multiple vendors and disparate systems, while end-users, increasingly reliant on tablets and smart phones, are unable to accomplish printing and scanning tasks. Above all, administrators lack the visibility into expenses necessary to protect profitability and recover costs.

The right solution requires more than just cost recovery software. Nuance Copitrak is a single, integrated solution that not only seamlessly tracks and recovers costs, but also automates the document lifecycle and breaks down scanning workflow bottlenecks. It offers the accessibility end-users demand while providing insight into expenses, profitability, and cost recovery that not only pleases end-users, administrators and IT, but most of all the partners. And it is backed by the full service and support needed to achieve greater profitability and performance.

## Advantages

### Broadest cross-platform support

With Copittrak, cost recovery is always accessible and activity can be tracked virtually anywhere, from Copittrak Eclipse and embedded MFP terminals to desktops, web browsers, tablets, and even smartphones. Boost your recovery rates and fee bargaining power with access to reliable data.

### A consistent end-user experience

With system accessibility from anywhere, and a consistent, easy-to-understand platform, Copittrak eliminates end-user frustration and boosts adoption across your organization. That means better productivity, higher recovery rates, increased compliance, and a satisfied management team.

### Secure personal printing and scanning that follows users wherever they are

The Copittrak suite provides each user with the MyVault personal Follow You print queue and scan inbox. MyVault is always private, highly secure, and conveniently accessible from any Copittrak-enabled printer or employee's desktop, web browser, or mobile device. Copittrak also lets you scan documents into any workflow you choose—collaboration, document management, court filing, discovery and more...

### Ergonomic kiosks and embedded terminals

The Copittrak Eclipse terminal provides a user-friendly interface for print, scan workflow, and cost tracking in a convenient kiosk that is ergonomic and secure for busy office environments. Copittrak also offers embedded terminals for a simple, zero-footprint MFP-integrated user interface.

### Single solution, number one provider

With the Copittrak suite, you benefit from an integrated solution for secure printing, scanning workflow, and cost recovery. Nuance minimizes your total cost of ownership because you only have one system and one vendor to manage, not to mention the number one in product and service.

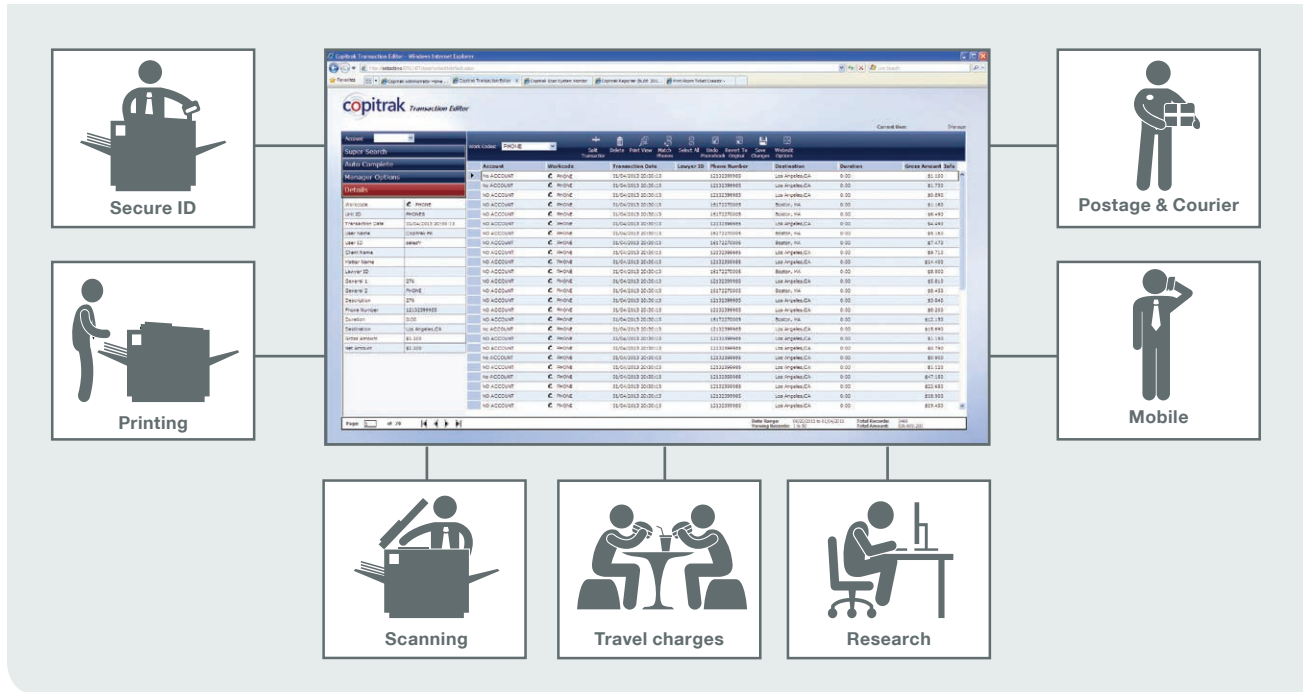

Why wouldn't you choose the number one vendor for all workflows throughout the document lifecycle—from collaboration and conversion to creating, editing, printing, scanning and tracking documents from anywhere in your organization. Nuance makes it easier and less expensive to do business in modern office environments. Choose the only full service solution designed for the way you work today.

## Benefits

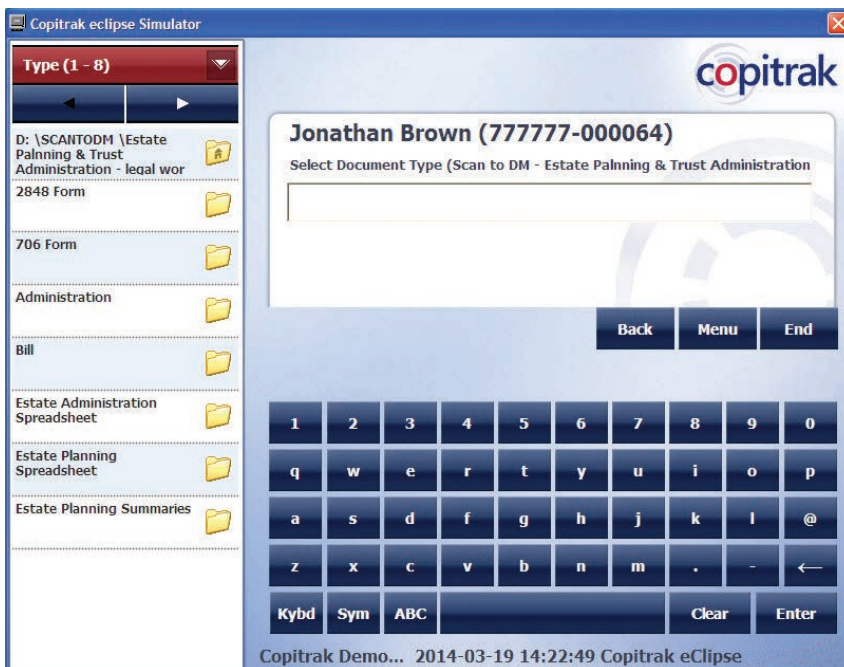

- Lower total cost of ownership with industry's #1 recovery solution, single integrated platform vendor
- Higher productivity driven by solution access across smartphones, tablets, terminals, and more
- Greater visibility into cost recovery, hard copy expenses, and firm-wide waste reduction
- Flexible, state-of-the-art solution built on an open system and modern industry standards
- Unique ability to convert, edit, and share PDF files with one click from any print application

**The Copittrak Eclipse terminal** provides an ergonomic and user-friendly interface for printing, scan workflow, and cost tracking.

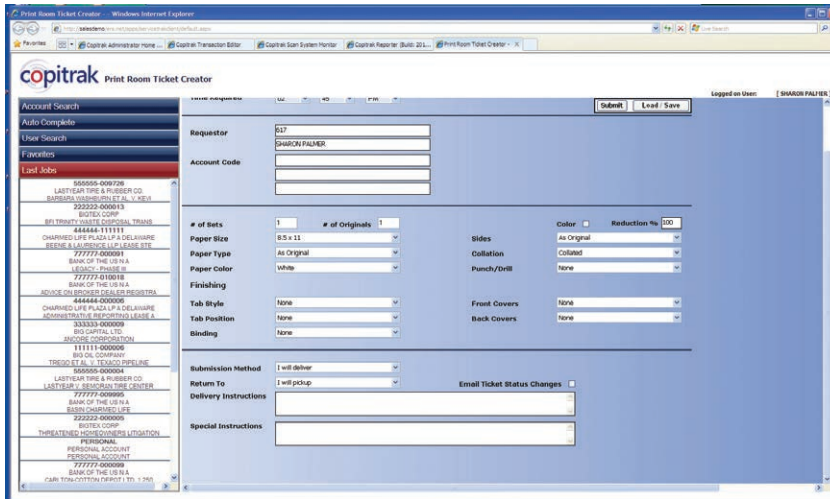

Copittrak Transaction Editor enables users to view, reconcile and approve exception transactions from a web browser before transmittal to billing.

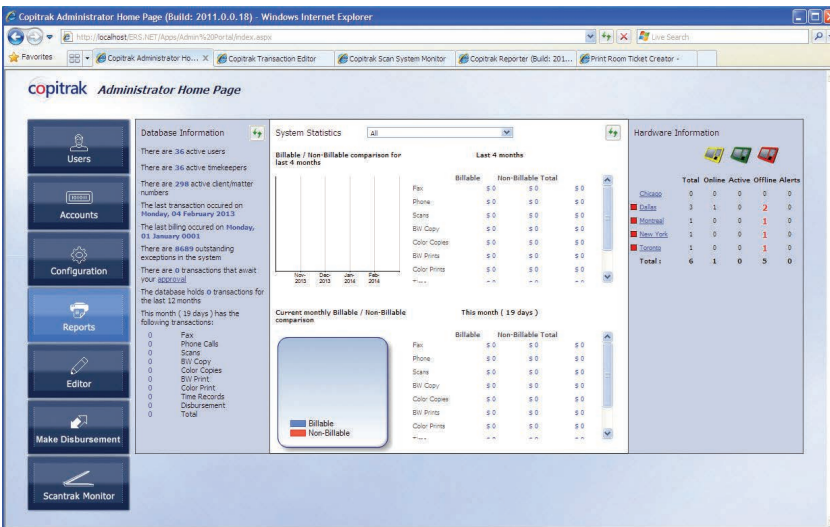

Copittrak Scan is an advanced scanning workflow solution integrated with the Copittrak Eclipse terminal and administration user interfaces. It streamlines collaboration, document management, court filing and discovery scanning workflows and enables firms to track, manage and assign costs for scanning paper documents.

**Copittrak Print Room** lets you track and manage copy center jobs and print queues

**The Copittrak System Software** offers centralized management, monitoring, and reporting
