

Business Challenges in today's environment

Inconsistent user interfaces

Users who are forced to adapt to inconsistent user interfaces are less efficient and productive. Additionally, this can cause frustration and lead to poor satisfaction and an unhappy workforce.

Inefficient scanning workflows

Without a consistent user interface, it makes it harder for the user to perform their scan workflows efficiently. Also, without the right technology in place users are not able to take full advantage of advanced scanning workflows that lead to increased user satisfaction and ultimately an improvement in productivity and scanning efficiency.

Security and compliance risks

The pains of meeting compliance regulations and enforcing standardized processes are common occurrences that reduce efficiencies and can lead to expensive fines. Organizations that are using older technology open themselves up to security and compliance risks. It is also harder for them to manage and secure their environment.

Copittrak Advanced Scan Solution Advantages

- ⑥ Powerful, efficient scanning workflows.
- ⑥ Enhanced Security and compliance eliminating risks.
- ⑥ Unified user interface for all your scanning devices
- ⑥ On-screen viewable scan preview that allows live adjustments prior to routing.
- ⑥ Highly proficient OCR engine to make your PDFs searchable.
- ⑥ Abundant amount of scan routing options available, including Scan to document management systems, desktop, secured folders, e-mail, Fax, among many other routes.
- ⑥ Scan features that include “scan and print”, bates stamping, pdf splitting by file size or by number of pages, QR code banner pages, custom document renaming, and the list goes on.
- ⑥ Supports various scanning modes such as local push, network push or pull “twain” scanning.

Copittrak Solution

We are the #1 cost recovery and document scanning workflow platform. It boosts productivity, tightens security, lowers costs, reduces waste, and recovers expenses of printing, copying, scanning and more. Its modular architecture and broad feature-set boasts the lowest cost of ownership and fosters green workplace and IT initiatives.
